Dear Mr. Zohadi,

I would like to express my gratitude and congratulate you on the publication of 2A magazine # 43, Summer 2020. Co-edited by Mr. Nader Ardalan and Ms. Karla Britton. The journal contained important articles on the theme of architecture and displacement, and we are happy to collaborate on distributing it to professionals in the field.

I have been following your architectural journal since its inception as well as the other activities that the 2A has launched which are complimentary in promoting a better understanding of architecture and the related fields throughout the region.

I am also thankful that you have covered the Aga Khan Award for Architecture in a number of your issues in the past and look forward that you send the Award's message to the wide audience of your magazine in the future.

I wish you success in your future projects.

Yours sincerely,

Farrokh Derakhshani
